

# GEOCULTURE

# GeoCulture

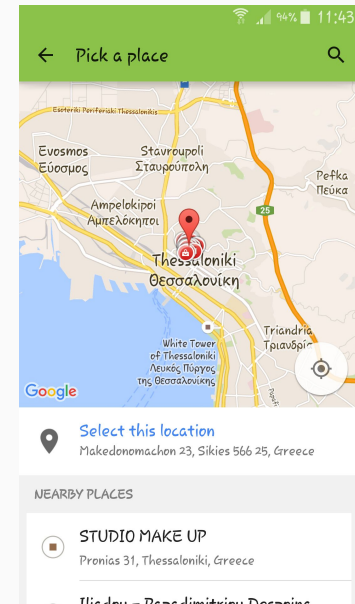

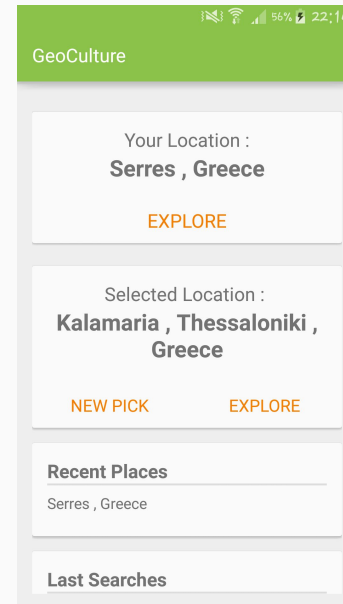

- To GeoCulture is a mobile app that intends to help users explore the cultural content of a specified location.
- The app attempts to find cultural content that is relevant ,with some kind of relationship, with the selected location or is about the selected location.
- For the movies, this relationship is the filming locations of the movie or the area to which the movie is referring.

# GeoCulture

- For the songs, this relationship exists when a song mentions a location or when the location is the origin of the song.
- So, users can easily explore an area in order to find its cultural content.
- As soon a tourism is concerned, this app could be seen as a measuring tool, which measures the cultural activity , history and quality of a location and it could be something very useful for someone who is visiting a city or area.

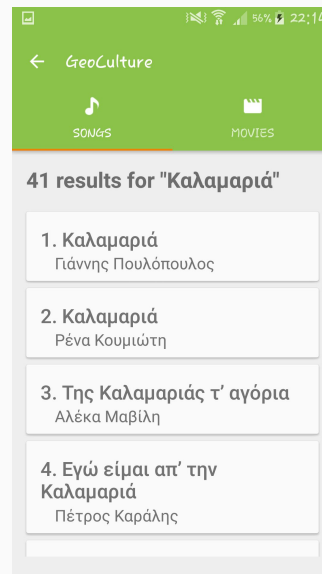

# Επιλογή Τοποθεσίας

- The app tracks the current location of the user
- Users may pick another location, irrelevant with their current one
- users may also pick a location from their search history or from the places that they were recently

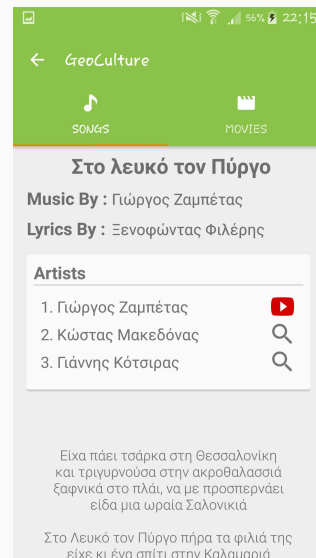

# Ανακάλυψη Περιεχομένου - Τραγούδια (1)

- The app searches in a database that contains songs along with their lyrics
- The returned results are displayed to the user as a list of songs
- Choosing a song, provides further information for that song

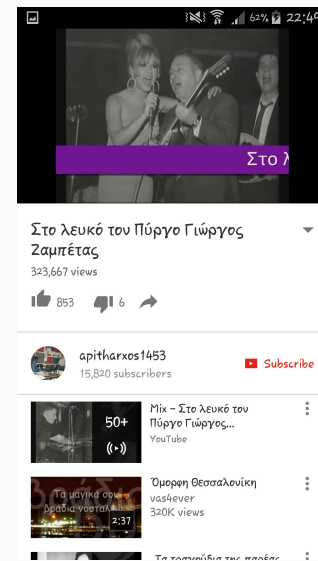

# Ανακάλυψη Περιεχομένου - Τραγούδια (2)

- Additional information may be provided for a song if requested
- The information contain the lyrics of the song, the artists that are connected to it and other info.

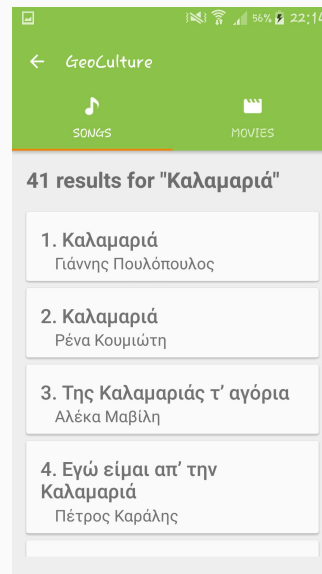

# Ανακάλυψη Περιεχομένου - Τραγούδια (2)

- Επίσης, ο χρήστης μπορεί να παρακολουθήσει το επιλεγμένο τραγούδι στο Youtube, αν είναι διαθέσιμο, ή να εκτελέσει μια αναζήτηση για αυτό στο Youtube. Users may watch the song on Youtube , if available, or search for it on Youtube.

# Ανακάλυψη Περιεχομένου - Ταινίες (1)

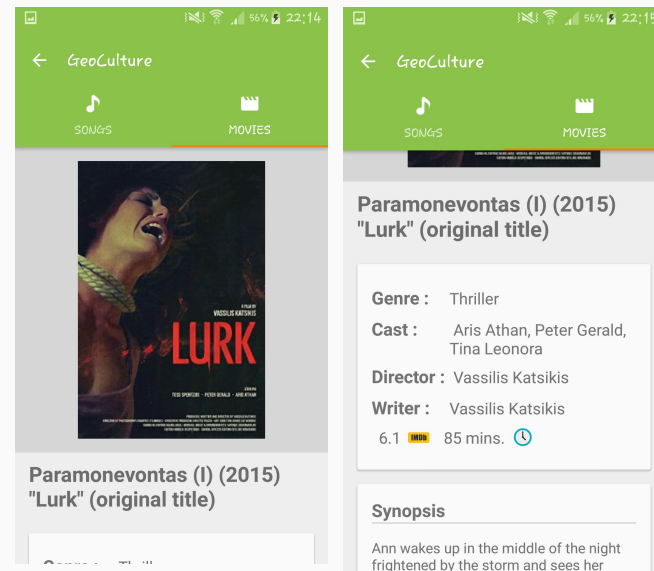

- A search takes place in a database that connects movies with locations.
- The returned list is displayed to the user
- Just like the songs, users may see more info about the movie.

# Ανακάλυψη Περιεχομένου - Ταινίες (2)

- More info are available for the majority of the movies.
- Information such as the director and the actors and a small synopsis of the movie can be provided to the user.

# Μελλοντικές Σκέψεις

- GeoCulture's purpose is the exploration of the cultural history of a given location
- However, culture includes other from except movies and songs such as paintings and literature.
- These aspects of culture are intended to be added in the functionality of the app.
- These aspects are currently unavailable due to time restrictions but will be added very soon.
